

Period: 2021
Location: Europe
Works: Deck Waterproofing and Coloured Wearing Course Including Lining works.

The Project

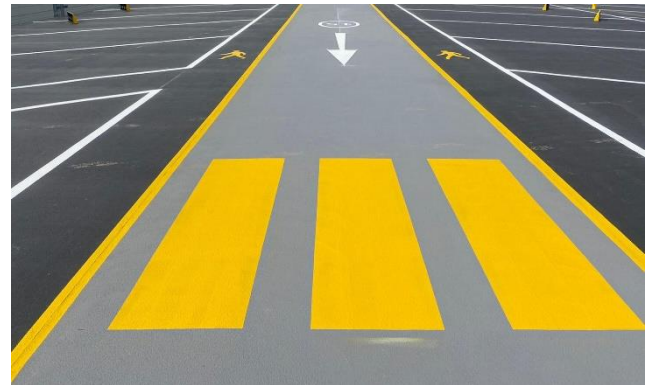

Car Park Coating Ltd were selected to Install a Reinforced protective waterproofing and Coloured Wearing Course system to a car park in **Europe**.

The rapid application as well as the speed of the on-site team ensured that the work was completed ahead of time **Car Park Coating Ltd** provided a comprehensive package of technical, planning and quality assurance expertise to ensure smooth project delivery.

The Works

Car Park Coating Ltd installed a seamless waterproofing membrane to protect the car park from water penetration. A hard wearing, durable wearing course was then instated, providing an anti-skid surface to complete the Reinforced System approx. **10,000m²**.

The last operation was to apply all white lining to the new system

Completion

Car Park Coating Ltd provided a high standard of workmanship and communication to complete the works on time and to the client's specification and satisfaction.

The long service life and ease of future maintenance of the products used by **Car Park Coating Ltd** will provide a cost effective solution, complete protection and will reduce the car park's whole life carbon footprint.
